FALL-PLANTED BULBS BRING SPRING'S EARLIEST FLOWERS

Do you fully realize how richly you will be rewarded if you plant in the Fall? In the Spring we all get the "planting fever" in our blood because Nature reveals itself so beautifully at that time. But he who plants in the Fall steals a march on the Spring planter reaping his harvest of bloom, cheer and pleasure when the latter is only planning his planting. So plant when others don't think of planting and reap bounteously in flowers in the very early Spring—when flowers are most appreciated as heralding the end of Winter! By planting now you will feel well repaid on beholding these beautiful floral harbingers of Spring on your own property next March or April, and receive the pleased comments of your neighbors and friends.

For a Riot of Gorgeous Colors Plant The Always Popular Tulip

A BED OF TULIPS MAKES A PRETTY SIGHT

Most popular of the Spring-flowering bulbs are the tulips. They come in such a variety of colors that almost any arrangement is possible. Blooming in every conceivable tint of brilliant red, yellow and pink, brown and violet, you can make the Springtime garden a riot of gorgeous colors lasting 6 to 8 weeks. Use Tulips for formal effects, or plant them indiscriminately equally as well. When planted in beds later to be occupied by shallow rooted plants, like geraniums or colons, the bulbs can be allowed to remain many years without lifting. Merely remove the tops after they turn yellow. Or if you want to lift them as soon as they have ceased blooming, lift in an out of the way place until the top is entirely dead, then store in a cool dry place until the next Fall. The varieties marked (D) are dwarf, (M) medium (T) tall.

SINGLE EARLY TULIPS

ARCTUS. (D) Bright scarlet, 55 cents per doz.; \$1.00 per hundred.
COTTAGE MAID. (D) Rose tinted white, 60 cents per doz.; \$1.25 per hundred.
COULEUR CARDINAL. (M) Dark scarlet, Extra fine, 85 cents per doz.; \$6.00 per hundred.
CRAMOISIE BRILLIANT. (M) Scarlet Crimson; 55 cents per doz.; \$4.00 per hundred.
KRUZIKROON. (T) Large brilliant red, deep golden yellow striped, 65 cents per doz.; \$4.50 per hundred.
PINK BEAUTY. (T) Bright pink and white; extra fine, 85 cents per doz.; \$6.00 per hundred.
PASTOR OF AUSTRIA. (T) Orange scarlet, 60 cents per doz.; \$4.25 per hundred.
ROSE GRIS-DE-LIN. (D) White, shaded with delicate pink, 60 cents per doz.; \$4.00 per hundred.
ROSE LEBLANCHE. (D) Deep rose, 75 cents per doz.; \$5.50 per hundred.
WHITE HAWK. (T) Early. Pure white, petals slightly fluted, 90 cents per doz.; \$6.50 per hundred.
YELLOW PRINCE. (D) Golden yellow, Sweet scented; 55 cents per doz.; \$3.75 per hundred.
MIXED SUPERFINE. All colors; 50 cents per doz.; \$3.25 per hundred.

DOUBLE EARLY TULIPS

CORONNE D'OR. (Crown of Gold) (M) Magnificent golden yellow, slightly shaded with orange. Large, 65 cents per doz.; \$4.50 per hundred.
EL TOREADOR. (D) Orange scarlet, edged with yellow, \$1.10 per doz.; \$8.00 per hundred.
GOLDEN KING. (D) Canary yellow, delicate; finest of the yellow tulips, \$1.00 per doz.; \$7.00 per hundred.
LUCIFER. Rose pink; very large and fine 60 cents per doz.; \$4.25 per hundred.
MR. VAN DER KLOOF. (D) Pure yellow, large flower, \$1.00 per doz.; \$7.00 per hundred.
MURILLO. (D) Delicate light pink. Medium height. For house or garden, 45 cents per doz.; \$3.25 per hundred.

REX RUBRORUM. (M) Beautiful scarlet, 85 cents per doz.; \$5.50 per hundred.
SALVATOR ROSA. (M) Deep pink, 65 cents per doz.; \$4.50 per hundred.
TERKSE. (M) Delicate blush and yellow, 60 cents per doz.; \$4.25 per hundred.
TOURNESOL. (D) Red and yellow, 70 cents per doz.; \$5.00 per hundred.
VORBACK. (D) Vermillion, 85 cents per doz.; \$6.00 per hundred.

DARWIN TULIPS

Popular for massing in shrubbery or perennial borders. Flowers unusually large, borne on long stems. Most striking and beautiful of all Tulips. Fine for cutting and latest of the tulips to bloom.
CLARA BUTT. Delicate salmon pink, 60 cents per doz.; \$4.00 per hundred.
LOUISE DE LA VALLIERE. (New) An extraordinary tulip; light pink with blue base, very beautiful, \$3.75 per doz.; \$30.00 per hundred.
MR. PARSONS SANDERS. Very showy. Immense brilliant scarlet blooms. 80 cents per doz.; \$5.50 per hundred.
PRINCE OF HAVELIN. Carmine pink, blue base. Extra large, 65 cents per doz.; \$4.50 per hundred.
REVEREND EWANK. Soft lavender, 65 cents per doz.; \$4.50 per hundred.
SIEKKAAD VAN FLORA. Brilliant red, 80 cents per doz.; \$5.50 per hundred.
THE SULTAN. velvety black, 60 cents per doz.; \$4.00 per hundred.
SUPERFINE MIXED. All colors, 50 cents per doz.; \$3.25 per hundred.

COTTAGE TULIPS—May Flowering
GEMFRIANA MAJOR. Fine rose color, with blue black centers, 65 cents per doz.; \$4.50 per hundred.
INGLESOMBE PINK. Soft rose, blushed with salmon, 60 cents per doz.; \$4.00 per hundred.
INGLESOMBE SCARLET. Brilliant scarlet with black base. Large, 65 cents per doz.; \$4.50 per hundred.
INGLESOMBE YELLOW. Large glossy, bright yellow, 55 cents per doz.; \$3.75 per hundred.
PICOTEE. (Maiden's Blush) Tinted white, margined rose. 55 cents per doz.; \$3.75 per 100.

Narcissi-Daffodils

Of the early Spring flowers few exceed the Narcissi for soft beautiful colors and delicacy and gracefulness of form. They continue to increase each year if undisturbed; and, on the lawn, in the orchard, or in the meadow, will form great colonies.

The single ones are effective planted in clumps, while the larger trumpet varieties are particularly good in borders, bearing massive flowers in increasing numbers from year to year.

Single Large Trumpet Narcissi—Daffodils

Bicolor, EMPRESS. Large yellow trumpet, pure white perianth, \$1.00 per doz.; \$7.00 per hundred.
Bicolor, GLORY OF SASSENHEIM. Yellow trumpet petals sulphur white, \$2.00 per doz.; \$15.00 per hundred.
Bicolor, VICTORIA. Canary yellow trumpet, white perianth. Large flowers. Fine for forcing, \$1.25 per doz.; \$8.50 per hundred.
EFFECTOR. Deep yellow. Unsurpassed. \$1.00 per doz.; \$7.00 per hundred.
GLORY OF LEIDEN. Bright yellow; enormous tube of deep yellow; broad, firm petals, \$1.00 per doz.; \$7.00 per hundred.
GOLDEN SPUR. Golden yellow. \$1.10 per doz.; \$7.50 per hundred.
KING ALFRED. Largest and finest golden yellow, giant trumpet, \$2.75 per doz.; \$18.00 per hundred.
PRINCEPS. Large yellow trumpet, creamy white perianth, double nose bulbs, \$1.00 per doz.; \$6.00 per hundred.

SINGLE MEDIUM TRUMPET NARCISSI—CHALICE CUP

BARRI, CONSPICUOUS. Orange cup with lemon yellow perianth, 60 cents per doz.; \$4.00 per hundred.
LEEDSII, MRS. LANGTRY. White, yellow edged crown, 65 cents per doz.; \$4.50 per hundred.
POET'S NARCISSI. White, yellow edged crown, 65 cents per doz.; \$4.50 per hundred.
POTIUS. Orange cup with pure white perianth. Fine for border or naturalizing. 65 cents per doz.; \$4.50 per hundred.
POTIUS ORNATUS. Early bloomer. Good for forcing. Rich yellow cup with scarlet margin. Perianth pure white. Extra size, double nose bulbs, 55 cents per doz.; \$3.50 per hundred.
DOUBLE NARCISSI
VON STON. Golden yellow; extra large. Popular for forcing. \$1.00 per doz.; \$7.00 per hundred. (extra size bulbs.)

THE LOVELY NARCISSUS

THE STATELY HYACINTH

TIME TO PLANT BULBS

During October and early November before the ground freezes plant Crocuses, Hyacinths, Narcissi and Tulip bulbs for Spring bloom. Any well drained garden soil will furnish a good bed for them, but if you want extra fine flowers, incorporate bonemeal or tankage with the soil in the proportion of one pound to each square yard.

DEPTH and SPACING

Cover each bulb with soil to a depth of about twice its height. A bulb 2 inches in diameter should have 4 inches of soil over it. In heavy or wet soil it is advisable to place a handful of clean gritty sand under each bulb. See that bulbs are covered firmly with the soil.

In making a formal bed, dig out the ground over the entire design to planting depth. Place the bulbs exactly where desired. When arrangement is finished restore soil carefully. This method gives better results than digging separate holes for each bulb placed.

HYACINTHS. Plant 6 to 10 inches apart.

NARCISSI. Small varieties are planted 4 to 6 inches apart, larger, 6 to 8 inches.

TULIPS. Plant 4 to 6 inches apart.

HYACINTHS

GIVE COLOR AND PERFUME

Hyacinths for a wealth of color and abundance of perfume! No garden is so small as to deny them room. They require but little space and will grow anywhere.

They respond well to indoor culture, too. (See directions elsewhere.) Potted any time from September to December, with the tops of the bulbs appearing just above the surface, a succession of bloom and fragrance is assured from Christmas until Easter. They flower in 4 to 6 weeks after being brought into the light.

Hyacinths can also be grown in glasses of water. The base of the bulb should barely touch the water. Set in a cool, dark place until well rooted.

Instead of handling the countless varieties we have selected a number we consider the best for general purposes—those with well filled trusses and sturdy in growth.

FIRST SIZE BULBS

GENERAL DE WET. Soft pink. Extra fine. Large spike and bells. 22 cents each; \$2.20 per doz. \$16.00 per hundred.
GERTRUDE. Dark rose. Large compact spike. 18 cents each; \$1.85 per doz.; \$14.00 per hundred.
GRAND MAITRE. Light blue. Large. Fine. 18 cents each; \$1.85 per doz.; \$14.00 per hundred.
KING OF THE BATES. Rich dark blue. Well formed. 18 cents each; \$1.85 per doz.; \$14.00 per hundred.
L'INNOCENCE. Pure white. Extra good. 18 cents each; \$1.85 per doz.; \$14.00 per hundred.
Second size bulbs, same varieties, 15 cents each; \$1.50 per doz.; \$10.00 per hundred.

SPECIAL BULB OFFER

- 1 dozen best Crocuses.
- 1 dozen mixed Hyacinths (second size).
- 1 dozen mixed Single Early Tulips.
- 1 dozen mixed Darwin Tulips.
- 1 dozen mixed Cottage Tulips.

\$3.00 POSTPAID.

DIRECTIONS FOR ORDERING

TERMS ☐ Cash with order. Please remit by Post Office or Express Money Order, Registered Letter or Bank Draft. Postage stamps may be sent for amounts up to \$2.00.

QUANTITY RATES. ☐ Not less than six of one variety will be sold at dozen rates.

SHIPMENTS. ☐ Dozen lots will be sent by Parcel Post, 100 lots by express.

POSTAL CHARGES. ☐ Please include 5 per cent of amount of order (unless specified postpaid) to cover parcel post charges for delivery by mail. Any excess will be returned to customer.

QUALITY OF STOCK. ☐ Only first-class stock, true to name, will be shipped. No substitutions will be made unless by permission accompanying order. *Late in the season it is well to indicate second choice in the event first selection is sold out.*

WARRANTY. ☐ We exercise the greatest care to have all stock genuine and true to label holding ourselves ready to refund the purchase price or replace any plant that proves untrue. We do not give any warranty, express or implied; and, in case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not be held responsible at any time for a greater amount than the original price of the goods.

B. F. BARR & CO.
(Keystone Nurseries)
Lancaster, Pa.

Special Offer In Mixed Tulips

SINGLE EARLY TULIPS. Superfine mixture of all colors. 50 cents per doz.; \$3.25 per hundred.
DARWIN TULIPS. Fine mixture of various colors. 50 cents per doz.; \$3.25 per hundred.
COTTAGE TULIPS. An extraordinarily good mixture. 50 cents per doz.; \$3.50 per hundred.

Dot Your Lawn With Crocuses

First Out-Door Flower To Bloom—Linking Winter and Spring

These earliest of all harbingers of Spring will grow anywhere, lifting their lovely vari-colored heads above the ground oft long before the drifts of the last heavy blizzard have disappeared. They seem to link Winter and Spring and encourage the beholder with the prospect of Spring's early arrival.

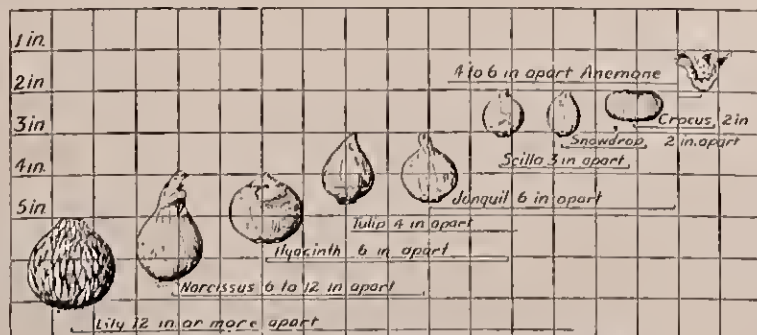

Every lawn should be dotted with Crocuses in the early Spring. The cost is small and the care they require nil. Once they are planted they are no further trouble and bloom year after year.

Crocuses give the best effect when dotting the lawn with no fixed plan arrangement. Scatter the bulbs thickly over the surface, then plant where they fall. The grass should not be mowed for 2 weeks after the blooms have disappeared—and mowing is not required earlier than this. Planted in the Tulip and Hyacinth beds the Crocus will bloom and be out of the way before the other flowers appear.

MIXED CROCUSES. Separate colors. Yellow, white striped, blue and purple, 20 cents per doz.; \$1.00 per hundred.

CROCUSES
EARLIEST BLOOMING FLOWERS

The Bulbs We Offer Are of Highest Quality Obtainable. Beware of Cheap Bulbs; They Are Invariably Unsatisfactory.

BULBS FOR HOUSE PLANTS

We offer a variety of bulbs for house plants that during the Winter will flower freely and bloom a long time.

FREESIA

Fine for Winter plants or cut flowers. Pretty white flowers on long stems and delicately scented. Can readily be brought into bloom by Christmas. By having a dozen or more pots started in cold frames a succession of bloom may be had throughout the Winter. Place near window and do not keep too warm. Unlike Hyacinthus and Tulips they need not be kept in the dark. A 5 inch pot will require 4 to 6 bulbs. One of the most satisfactory bulbs for forcing.

PARVIA PURITY. Selected bulbs, 30 cents per doz.; \$2.50 per hundred. Mammoth bulbs, 50 cents per doz.; \$5.00 per hundred.

RAINBOW, PARVIA'S STRAIN. In a large number of beautiful shades of yellow, blue, violet, mauve, pink, lavender, etc. As large as the white type and equally fragrant. In mixed colors, \$1.00 per doz.; \$7.50 per hundred.

PAPER WHITE NARCISSI

Most satisfactory for house growing for winter bloom. Splendid for growing in pots or water. Bloom six weeks after planting. Large clusters of pure white, fragrant flowers.

Put half a dozen of the bulbs in a bowl of water, pebbles or gravel supporting the bulbs. These need not be kept in the dark a cool room is the best place to start them.

Change water occasionally to keep it pure. **PAPER WHITE GRANDIFLORA.** Extra sized bulbs, 70 cents per doz. \$4.00 per hundred.

OXALIS

For pots or hanging baskets this charming half trailing plant is equally attractive. Several bulbs can be grown in a pot. They may be started in fall light.

BUTTERFLY. Flowers bright yellow, 45 cents per doz.

BOWLIE. Rosy crimson, 50 cents per doz.

CHINESE SACRED LILY (Oriental Narcissi)

Considered by the Chinese as an emblem of good luck. Grows rapidly. Earliest the immense bulbs will produce

Directions for Pot Culture

Plant the bulbs in a rich sandy loam any time from September to December, placing a few pieces of broken crockery or charcoal in the bottom of the pots for drainage. Water thoroughly and set pots outdoors under a depth of 4 to 6 inches of soil or coal ashes to prevent freezing. Or after carefully watering the pots, place in a cool dark cellar. Don't let soil get dry. Not less than six weeks later when tops are an inch or two high bring gradually to light. In the heat of the living room they will require frequent watering. Shade slightly if plants remain dwarf.

10 to 15 flower stalks, with a profusion of large, delicately scented white flowers with orange cups.

Very ornamental when grown in a bowl of shallow water. Use shining white pebbles or small shells to keep it from turning over when in bloom. Start a dozen bulbs at intervals for a succession of flower through the Winter.

They may be started in full light. Growth starts in a few days, reaching maturity in six weeks. Twenty cents each.

CALLA LILIES

Very attractive window plants and easily grown. For most satisfactory results give water, light and heat in abundance.

WHITE CALLA. (Lily of the Nile) Extra large bulbs. 30 cents each; \$3.00 per doz.

SPOTTED CALLA. Flowers white; foliage green, spotted white, 40 cents each; \$3.25 per doz.

LILY OF THE VALLEY

Extra selected Berlin pips. Ready in November. 60 cents per doz.; \$4.00 per hundred.

FREESIA FOR CHRISTMAS BLOOM

IRIS--THE POOR MAN'S ORCHID; PLANT IT, ENJOY IT

German or Full Bearded Iris

Price of any variety, 25 cents each; five of one variety, \$1.25.

ADMIRAL TOSO. White faintly tinged lavender.

DARIUS. Standards rich creamy yellow; falls lilac, very beautiful.

ECLIPSE. Velvety chert red, shaded violet, throat markings gold.

FLORENTINE ALBA. Waxy white, tinted lilac. Early.

HONORABILIS. Standards yellow; fall a beautiful bronze.

JOHAN DE WITT. Standards bluish violet; falls deep blue purple, veined with white.

JOHAN DE WITT. Rich chert purple, compact and handsome.

LORD GREY. Cooled rose-flame.

LORD SALISBURY. Standards under white; falls dark violet purple.

MAD MARIAN. Lavender, reticulated purple.

MAORI KING. Standards golden yellow; falls velvety crimson, margined gold.

MME. CHERRY. Pure white, edged with blue.

PLUMER. Standards coppery rose; falls velvety claret; tall.

TINNAE. Deep blue, shaded lilac; fine large flower.

TEATLIEB. Uniform soft rose, shaded lighter at base.

Japanese Iris

(Iris Laevigata Kaempferi)

Price of any variety, 35 cents each; five of one variety, \$1.75. Please order by key.

A. Red falls, yellow throat, red center.

B. White and purple striped falls, purple center.

C. White and lavender falls, yellow throat, white center.

D. White and red-striped falls, yellow throat, white and lavender center. 6 petals.

E. Pink falls, yellow throat, pink center.

Favorite Iris Collection \$2.25

1 MME. CHERRY. White, bordered blue.

1 JOHAN DE WITT. Bluish violet, veined white.

1 HONORABILIS. Yellow; falls bronze.

1 DARIUS. Creamy yellow, falls lilac.

1 LORD SALISBURY. Amber white; falls dark violet purple.

1 TINNAE. Deep blue shaded lilac.

1 FLORENTINE ALBA. Waxy white, tinted lilac.

1 TEATLIEB. Soft rose, shading lighter at base.

1 ADMIRAL TOSO. White, faintly tinged lavender.

1 PLUMER. Coppery rose; falls claret.

The above choice collection worth \$2.50, sent postpaid on receipt of \$2.25.

IRIS--Cultural Directions

September, its dormant season, offers the most favorable planting time for the Iris (Fleur de lis, or Flag as it is also designated).

A dry, sunny location is preferable. Plant in good garden soil and avoid the use of fresh manure. Cultivate frequently. No wind protection is required by the Iris.

No garden seems complete without the Iris. When you look into its heart, what beauty of soft iridescence is revealed, and what colors, Heaven's own blue, royal purple, gold, scarlet, white, lavender! In masses, the effect is most striking.

THE JAPANESE IRIS

Plant the Japanese Iris no later than October 1. It loves a moist, fertile soil. For planting around fountains and along streams, or in the Perennial Garden where water can be supplied, it is especially suited.

The Japanese Iris flowers in July after the Fleur de Lis have long finished blooming.

As the original Japanese names are almost unpronounceable we have listed them by key and description for your convenience.

F. White and red edged falls, yellow throat, white center.

G. Red, purple and white falls, yellow throat, purple center. 6 petals.

H. Lavender and white falls, yellow throat, lavender and white center.

I. White with purple veined falls, yellow throat, purple center.

J. Dark purple falls, yellow throat, dark purple center.

K. Light blue falls, yellow throat, lavender center.

L. Dark red, veined white falls, yellow throat, white and red center.

M. Dark blue falls, yellow throat, white center.

N. Dark purple falls, yellow throat, purple center.

O. White veined blue falls, yellow throat, purple center.

P. Dark purple falls, yellow throat, white center. 6 petals.

Q. White veined falls, purple edge, yellow throat, white and purple center.

R. Purple, white edge falls, yellow throat, purple center.

S. Lavender, white edge falls, yellow throat, white center. 6 petals.

T. Gray falls, yellow throat, purple center.

U. White veined blue falls, yellow throat, purple center. 6 petals.

V. Pink suffused purple falls, yellow throat, suffused purple center. 6 petals.

W. Dark purple falls, yellow throat, purple center.

X. Light blue veined purple falls, yellow throat, light blue center. 6 petals.

Y. Porcelain blue falls, yellow throat, purple center, 6 petals.

Z. Red, veined white falls, yellow throat, white center, 6 petals.

Z-1. Dark purple fringed falls, yellow throat, purple center. 6 petals.

Z-2. Purple veined dark blue falls, yellow throat, purple center.

Z-3. Red, purple veined falls, yellow throat, dark purple center.

Z-4. Dark purple falls, yellow throat, purple center. 6 petals.

Z-5. Lavender and white falls, yellow throat, lavender center. 6 petals.

Z-6. Purple and red falls, yellow throat, lavender center.

Z-7. White falls, yellow throat, white center.

Z-8. Lilac falls, yellow throat, purple center.

Z-9. White falls, yellow throat, white center, 6 petals.

Z-10. White falls, yellow throat, double white center. 6 petals.

Z-11. White, purple veined falls, yellow throat, lilac center.

Z-12. Purple fringed falls, yellow throat, purple center. 6 petals.

Z-13. Lavender veined blue falls, yellow throat, red and purple center.

Z-14. Blue, white veined falls, yellow throat, white center.

Z-15. White, red-veined falls, yellow throat, lavender and purple center.

Z-16. Dark purple falls, yellow throat, purple center, 6 petals.

Z-17. Light blue veined falls, yellow throat, white and light blue center.

1 Dark purple falls, yellow throat, purple center. 6 petals.

1 Dark purple falls, yellow throat, purple center. 6 petals.

1 Dark purple falls, yellow throat, purple center. 6 petals.

In The Fall Plant Peonies--King of Flowers

Best Time in Entire Year to Plant this Highly Decorative Flower Is August, September and October

There is no better time to plant the Peony than in August, September and October.

For the best results plant them 3½ feet apart in good garden soil. Set so the eyes or crown will be covered with 2 to 3 inches of soil. Mulch in the Fall with decayed manure.

First cost is the only cost. After planting they increase in size and value for years. Even when out of flower the plant is attractive by reason of its rich, green foliage. As they thrive best on considerable moisture it is suggested that they should not be planted near spreading roots of trees.

Mass planting always produces the grandest effects. Peonies can be planted in every conceivable place, as

single specimens, in large or small beds, against shrubbery, or in long rows bordering walks and drives, and yield a rich return in bloom. For ease of cultivation they are not to be excelled. Insects or disease seldom attack them and they withstand the severest weather. They thrive in all soils, unless too sandy, and in field culture are more easily raised than potatoes.

What can exceed the Peony for popularity! Best of all, how fast that popularity grows from year to year. Such an interest has been bestowed on the Peony that over five hundred varieties have been propagated.

Rich in form and color Peonies have great decorative value as cut flowers. They equal the delicacy of coloring and beauty of the finest roses, and many of the fragrant varieties have the true rose odor.

ALL COLORS--Early, Mid-Season and Late

Collection No. 1--Early

ADOLPH ROUSSEAU. Dark velvet red, shell like petals. Large, extra fine.

DUC DE WELLINGTON. Large sulphur white; fragrant.

EDULIS SUPERBA. Pink; intermixed with narrow white petals.

FESTIVA MAXIMA. Snow white, shading to delicate creamy white. Large and fragrant.

PRINCESS BEATRICE. Yellow with large rose tuft in center.

UMBELLATA ROSEA. Violet-rose guards, center shading white. Large rose type.

Collection No. 2--Midseason

BARON J. ROTHSCHILD. Outside petals rose; center salmon; fragrant.

FELIX CROUSSE. Brilliant red, richly flamed center.

GLOIRE DE CHAS. GOMBULT. Guards and crown light rose; collar of narrow cream white petals; multi-color variety.

M. JULES ELIE. Glossy flesh pink, shading to deeper rose at base.

MME. BUCQUET. Dark velvety amaranth.

MME. CROUSSE. Snow white center; petals edged with bright carmine; extra fine.

UMBELLATA ROSEA. Violet-rose guards, center shading white. Large rose type.

ADVANTAGES OF GENERAL PLANTING IN THE FALL

Transplant Best In Autumn

Strange as it may seem certain species and varieties of plants transplant to best advantage in the Fall. Among them are those Perennials which begin their growth at the first sign of Spring and really before the ground is in fit condition to work. If such plants are transplanted in the Spring the usual result is a check to growth and exceptionally weak development of flowers and of foliage during that season. The fall-transplanting of the early Spring flowering types is advised for September, while the ground is still warm, permitting root action.

In this class of Plants are included:

Columbine	Lilies
Bleeding Heart	Peony
Leopards Bane	Primula
Iris	Trollius
	Poppies

See 1922 General Catalogue for description and prices. Copy sent on request.

Unfitted for Fall Planting

Certain species and varieties of plants are not adapted for transplanting in the Fall. We call attention to this matter at this time to save our customers avoidable losses, and errors in ordering.

Plants in this class are the following:

Beech	Laurel
Birch	Magnolia
Cannas	Poplar
Chrysanthemums	Rhododendron
Dahlia	Rose of Sharon
Gladioli	Rosa Rugosa
Liquid Amber	Bedding Plants

Orders for any of the above which are listed in our 1922 catalogue will be gladly accepted for Spring delivery.

Excepting those named above, most Shade and Fruit Trees, Evergreens and Shrubs will transplant with satisfactory results in the Fall.

GAIN BY PLANTING EVERGREENS NOW

By transplanting Evergreens late in August, September and October the roots have an opportunity to be established in the warm earth. Thus established the plants can start growth with the first warm days of Spring--the gain over Evergreens planted in the Spring being that they have already established themselves and can take advantage of the entire Spring and Summer season for growth. This gain sometimes will amount to an entire year's growth and has its value in dollars and cents.

THE FALL PLANTING OF ROSES

Roses can be planted with good results in the Fall if a protected place is selected and protective measures adopted. South of the Mason and Dixon line Fall planting is advised without reservation.

The advantage to be gained by Fall planting is the early start the plants will make in Spring insuring larger and stronger plants and more abundance of bloom.

For a list of carefully selected roses--the best culled from the hundreds of varieties that have been produced--see our 1922 General Catalogue which will be sent free on request.

Why Not Do That Planting This Fall with "Will Grow" Evergreens, Trees and Shrubbery? Without Charge Our Landscape Department Will Advise You in Planning.

DIRECTIONS FOR ORDERING

TERMS ¶ Cash with order. Please remit by Post Office or Express Money Order, Registered Letter or Bank Draft. Postage stamps may be sent for amounts up to \$2.00.

QUANTITY RATES. ¶ Not less than six of one variety will be sold at dozen rates.

SHIPMENTS. ¶ Dozen lots will be sent by Parcel Post, 100 lots by express.

POSTAL CHARGES. ¶ Please include 5 per cent of amount of order (unless specified postpaid) to cover parcel post charges for delivery by mail. Any excess will be returned to customer.

QUALITY OF STOCK. ¶ Only first-class stock, true to name, will be shipped. No substitutions will be made unless by permission accompanying order. *Late in the season it is well to indicate second choice in the event first selection is sold out.*

WARRANTY. ¶ We exercise the greatest care to have all stock genuine and true to label holding ourselves ready to refund the purchase price or replace any plant that proves untrue. We do not give any warranty, express or implied; and, in case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not be held responsible at any time for a greater amount than the original price of the goods.
